

# CENTER FOR MACHINE LEARNING

## Rising Stars in Machine Learning

The [University of Maryland Center for Machine Learning](#) invites female graduate students and postdocs pursuing academic careers in machine learning to apply to its “Rising Stars in ML” program. The program is intended to support women researchers in machine learning as they pursue new scientific discoveries and academic opportunities.

Starting in Fall 2019, three outstanding applicants will be invited to visit the [Brendan Iribe Center for Computer Science and Engineering](#) and present their work as part of our distinguished ML seminar series. Travel expenses and other benefits will be awarded to selected applicants.

### Eligibility and Application Process:

Applicants must be female graduate students or postdocs with a Ph.D. (or an expected Ph.D.) in computer science or a related discipline. Women applying to jobs in academia are strongly encouraged to apply to this program.

Eligible applicants need to submit a single-page cover letter explaining their interest in machine learning with a CV by **August 15, 2019**. These documents should be sent to “ml at umiacs dot umd dot edu” with the subject line of “Rising Star in ML Application.”

**Application Deadline:** August 15, 2019 (11:59 PM EST)

University of Maryland Institute for Advanced Computer Studies
